

Evaluation Report for Category B, Subcategory 4.6 Application

Application Number: 2015-4503
Application: B.4.6 - Fulfill Conditions of Registration on a Product with Full Registration
Product: Xemium SC Foliar Fungicide
Registration Number: 30565
Active ingredients (a.i.): Fluxapyroxad
PMRA Document Number: 2684972

Purpose of Application

The purpose of the application was to address the value condition of full registration for Xemium SC Foliar Fungicide.

Chemistry, Health and Environmental Assessment

Chemistry, health and environmental assessments were not required for this application.

Value Assessment

The value information requirements as conditions of registration were addressed by efficacy data in these applications. Efficacy data from eight field trials on lentil, peanut and oat demonstrated that Xemium SC Foliar Fungicide at the label rate suppressed ascochyta blight on edible podded legumes (Crop Subgroup 6A) and succulent shelled peas and beans (Crop Subgroup 6B), late leaf spot on peanut and crown rust on oat. Based on the value information submitted and the weight of evidence analysis, a suppression claim is supported for these uses. Efficacy data from three field trials on canola also demonstrated that Xemium SC Foliar Fungicide at the label rate controlled blackleg on canola.

The submitted value information is deemed to be sufficient to fulfill the conditions of registration on the uses specified above for Xemium SC Foliar fungicide.

Conclusion

PMRA has reviewed the information provided to address the conditions of full registration. Based on the results of this review, the conditions of full registration have been addressed.
