

Evaluation Report for Category B, Subcategory 1.3 Application

Application Number: 2016-8068
Application: Changes EP Chemistry-Identity of Formulants
Product: BmJ TGAI
Registration Number: 32525
Active ingredients (a.i.): *Bacillus mycoides* isolate J
PMRA Document Number: 2753785

Purpose of Application

The purpose of this application was to provide data to support a longer storage stability period of 33 months on the label. BmJ TGAI was first registered in 2016 with a storage stability at 25°C of 6 months.

Chemistry Assessment

The storage stability data for BmJ TGAI demonstrated stability for up to 33 months, when stored at temperatures of up to 25°C. The microbial pest control agent (MPCA) is also documented as a thermo-stable species. A 33 months stability statement is therefore acceptable.

Health, Environmental and Value Assessments

Health, environmental and value assessments were not required for this application.

Conclusion

The Pest Management Regulatory Agency has completed an assessment of the information provided and is able to support the amended label of the technical grade active ingredient, BmJ TGAI.
