

Evaluation Report for Category B, Subcategory 1.1 Application

Application Number: 2019-2497
Application: New TGAI (Product Chemistry) - New site, same registrant
Product: Pepino mosaic virus, CH2 strain, isolate 1906
Registration Number: 33107
Active ingredient (a.i.): Pepino mosaic virus, strain CH2, isolate 1906
PMRA Document Number: 3009982

Purpose of Application

The purpose of this application was to register a new manufacturing site for the technical grade active ingredient (TGAI), Pepino mosaic virus, CH2 strain, isolate 1906.

Chemistry Assessment

The registrant submitted an attestation that the manufacturing methods, potency estimation analysis, and microbial contamination analysis for the new manufacturing site are identical to those that are currently registered. This supports the new manufacturing site of Pepino mosaic virus, CH2 strain, isolate 1906. The registrant will be required to submit the results of the potency estimation and microbial contamination analyses from five batches of technical grade active ingredient produced at the new manufacturing site as postmarket information after registration.

Value, Health and Environmental Assessments

Value, health and environmental assessments were not required for this application.

Conclusion

The Pest Management Regulatory Agency has completed an assessment of the information provided, and has found the information sufficient to support the new site for Pepino mosaic virus, CH2 strain, isolate 1906.
