

Evaluation Report for Category B, Subcategory 3.8 Application

Application Number: 2021-2490
Application: Changes to Product Labels – Re-Entry Interval
Product: Pyriofenone 300SC Fungicide
Registration Number: 32376
Active ingredient (a.i.): Pyriofenone
PMRA Document Number : 3296302

Purpose of Application

The purpose of this application was to amend the product label of Pyriofenone 300SC Fungicide to amend the restricted-entry interval (REI) for cane turning and girdling in grapes from 16 days to 12 hours.

Chemistry, Environmental and Value Assessments

Chemistry, environmental and value assessments were not required for this application.

Health Assessments

The postapplication quantitative risk assessment for pyriofenone was updated to assess the reduction in the REI for cane turning and girdling for grapes from 16 days to 12 hours. No health risks of concern were identified provided that workers wear the appropriate personal protective equipment and follow all label directions.

Toxicology and dietary exposure assessments were not required for this application.

Conclusion

The Pest Management Regulatory Agency has completed an assessment of the information provided and has found it sufficient to amend the restricted-entry interval for Pyriofenone 300SC Fungicide.
