

Evaluation Report for Category B, Subcategory 3.13 Application

Application Number: 2022-0773
Application: Changes to Product Labels-Precautions
Product: Pramex Insect Killer R4
Registration Number: 26289
Active ingredients (a.i.): Permethrin
PMRA Document Number : 3343677

Purpose of Application

The purpose of this application was to remove the signal word “Caution” and hazard statement “Poison”, along with the accompanying skull and crossbones symbol from the product label of Pramex Insect Killer R4.

Chemistry, Environmental and Value Assessments

Chemistry, environmental and value assessments were not required for this application.

Health Assessments

Pramex Insect Killer R4 is of low acute toxicity via the oral, dermal and inhalation routes of exposure. It is non-irritating to the eyes and skin, and is not a dermal sensitizer.”

Based on the re-examination of the supporting acute toxicology data, the signal word “Caution” and hazard statement “Poison”, as well as the skull and crossbones symbol enclosed in the inverted triangle border, are not required on the principal display panel of the Pramex Insect Killer R4 label and may therefore be removed.

Occupational and residue assessments were not required for this application.

Conclusion

The Pest Management Regulatory Agency has completed an assessment of the information provided, and has found the information sufficient to amend the label of Pramex Insect Killer R4.
