

Evaluation Report for Category B, Subcategory 2.1 Application

Application Number: 2021-5054
Application: New EP Product Chemistry-Guarantee
Product: Halex GT Herbicide
Registration Number: 29341
Active ingredients (a.i.): S-metolachlor and R-enantiomer, Glyphosate (present as potassium salt), and Mesotrione
PMRA Document Number: 3351997

Purpose of Application

The purpose of this application was to add metal as a container type for Halex GT Herbicide.

Chemistry Assessment

The data required to support the addition of metal as a packaging material for Halex GT Herbicide have been provided, reviewed and found to be acceptable. The chemistry requirements for this product have been fulfilled.

Health, Environment, and Value Assessments

Health, environment, and value assessments were not required for this application.

Conclusion

The Pest Management Regulatory Agency has completed an assessment of the information provided, and has found the information sufficient to support the addition of metal as a container type for Halex GT Herbicide.
