

## Evaluation Report for Category B, Subcategory B.3.10 Application (New or Changes to Product Label – Tank Mixes)

**Application Number:** 2023-5603  
**Application:** Category B.3.10 (New or changes to product label – Tank mixes)  
**Product:** Callisto 480SC Herbicide  
**Registration Number:** 27833  
**Active Ingredient (a.i.):** 480 g mesotrione/L  
**PMRA Document Number:** 3559213

### Purpose of Application

The purpose of this application was to amend the registration of Callisto 480SC Herbicide to:

1. replace Agral 90 as the labelled surfactant with the generic reference, “non-ionic surfactant”;
2. remove references to tank mixtures with Ultim 75DF or Accent 75DF;
3. remove the warning statement with respect to crops that were previously treated with Lorsban products, which are now historical;
4. include other minor label amendments, including the addition of an advisory statement to not apply Callisto 480SC Herbicide in nitrogen solutions as a carrier to emerged corn.

### Chemistry, Health, and Environmental Assessments

Chemistry, health, and environmental assessments were not required as there was no change to product chemistry, product formulation, or use pattern.

### Value Assessment

Value information is not required to replace a specific non-ionic surfactant product with a generic reference to the same class of surfactant, or to remove tank mixtures or references to historical products, or to add advisory statements on product labels.

### Conclusion

The Pest Management Regulatory Agency has completed an assessment of the subject application and has found the requested label amendments to be acceptable.
