A partial response to the outlined Terms and Conditions will not be accepted.

**Part M2                      PRODUCT CHARACTERIZATION AND ANALYSIS**

---

**DACO:**                      **M2.7.1i**  
**Title:**                        **Origin, derivation, and identification of the MPCA(s)**

**Details:**                    **The development of a molecular method to permit unique identification of the MPCA from other (wildtype and biological control) strains of this species is required. The method of McManus and Jones (1995. Phytopathol. 85(2):1547-1553) is suggested as a method that could satisfy this requirement.**
