

## Evaluation Report for Category B, Subcategory 4.1 Application

**Application Number:** 2009-4592  
**Application:** Conversion to full registration without consultation  
**Product:** Chipco Triton Fungicide  
**Registration Number:** 29109  
**Active ingredients (a.i.):** Triticonazole  
**PMRA Document Number:** 1855197

### Background

Chipco Triton Fungicide was first granted conditional registration in 2009. Chipco Triton Fungicide is a commercial product registered for the control of dollar spot, anthracnose and brown patch, pink snow mould, gray snow mould and fusarium patch on established golf course turfgrass only. For specific details of uses, application rates and methods, precautions, restrictions, and personal protective equipment requirements, refer to the product label.

### Purpose of Application

The purpose of this application was to convert Chipco Triton Fungicide from conditional to full registration. There were no outstanding data requirements for this product; its conversion to full registration was contingent only on the conversion from conditional to full registration of the technical active, Triticonazole Technical (Reg. No. 26454; 2007-8101).

### Chemistry, Health, Environmental and Value Assessment

Chemistry, health, environmental and value assessments were not required for this application as there were no changes to the product chemistry or the use pattern.

### Conclusion

The PMRA has completed an evaluation of the subject application and has found the information sufficient to convert the registration status for Chipco Triton Fungicide from conditional to full registration.
