

## Evaluation Report for Category C, Subcategory C.3.10 Application (New or Changes to Tank Mixes)

**Application Number:** 2013-0053  
**Application:** Category C, Subcategory C.3.10 (new or changes to product label – tank mixes)  
**Product:** OverDrive Herbicide  
**Registration Number:** 30065  
**Active ingredients (a.i.):** 20% diflufenzopyr and 50% dicamba  
**PMRA Document Number :** 2277165

### Background

OverDrive Herbicide (Reg. No. 30065) is a co-formulation of 20% diflufenzopyr and 50% dicamba and registered as a broadleaf herbicide option in non-cropland and rangeland and pasture. OverDrive Herbicide is labeled for application at 285 g product/ha with a non-ionic surfactant (NIS) at 0.25% v/v plus 28% UAN at 1.25% v/v. For specific details of uses, application rates and methods, precautions, restrictions, and personal protective equipment requirements, refer to the product label.

### Purpose of Application

The purpose of this application is to amend the registration of OverDrive Herbicide to include Merge Adjuvant as an alternative to the registered adjuvant system of a NIS plus 28% UAN when applied in tank mix with OverDrive Herbicide.

### Chemistry, Health, and Environmental Assessments

Chemistry, health, and environmental assessments were not required as there was no change to product chemistry, product formulation, or use pattern.

### Value Assessment

Scientific rationale and data from field research trials submitted under application number 2010-6257 demonstrated Merge Adjuvant applied at 0.5 L/ ha is equivalent in terms of performance to the adjuvant system of a NIS at 0.25% v/v + 28% UAN at 1.25% v/v when applied in tank mix with a similar product to OverDrive Herbicide.

### Conclusions

The PMRA has completed an assessment of the subject application and has found the information sufficient to amend the registration of OverDrive Herbicide to include Merge Adjuvant as an alternative to the registered adjuvant system of a NIS plus 28% UAN when applied in tank mix with OverDrive Herbicide.
