

Evaluation Report for Category B, Subcategory 3.13 Application

Application Number: 2016-2117
Application: Changes to Product Labels-Precautions
Product: Clariva PN
Registration Number: 31681
Active ingredients (a.i.): *Pasteuria Nishizawae* Pn1
PMRA Document Number: 2655674

Background

Clariva PN is a commercial product registered in Canada since May 22, 2015. It is an insecticide for use in seed treatments.

Purpose of Application

The purpose of this application was to amend the storage statement on the Clariva PN label from 4°C to a range of 0°C to 38°C.

Chemistry Assessment

The results of the storage stability study support the proposed amended storage statement on the label.

Health, Environmental and Value Assessments

A health, environmental and value n assessment was not required for this application.

Conclusion

The PMRA has review the information submitted in support of this application and has determined that the label amendment can be supported.
