

## Evaluation Report for Category B, Subcategory 3.7 Application

**Application Number:** 2016-2053  
**Application:** Changes to Product Labels – Pre-Grazing Interval  
**Product:** Ultim 75 DF Herbicide  
**Registration Number:** 24736  
**Active ingredients (a.i.):** Nicosulfuron and rimsulfuron  
**PMRA Document Number:** 2742076

### Purpose of Application

The purpose of this application was to amend the grazing statements on the Ultim 75 DF Herbicide product label.

### Chemistry, Environmental and Value Assessments

Chemistry, environmental and value assessments were not required for this application.

### Health Assessments

An acceptable scientific rationale was submitted to support amendment of the grazing statement on the label of Ultim 75 DF Herbicide. Exposure to residues of nicosulfuron and rimsulfuron in the diet from this action will not pose health s of concern to any segment of the population, including infants, children, adults and seniors.

Toxicology and occupational exposure assessments were not required for this application.

### Conclusion

The Pest Management Regulatory Agency has completed an assessment of the available information and has found it sufficient to support the amendment to the grazing statement on the Ultim 75 DF Herbicide product label.
