

# **Evaluation Report for Category B, Subcategory 3.2, 3.3 Application**

**Application Number:** 2023-0627

**Application:** Changes to Product Labels – Application Timing; Application

Number or Frequency

**Product:** Adios Ambros Water Soluble Granule

**Registration Number:** 28236

**Active ingredient (a.i.):** Sodium chloride

PMRA Document Number: 3615183

## **Purpose of Application**

The purpose of this application was to amend the label of the commercial end-use product Adios Ambros Water Soluble Granule to (1) modify/broaden the conditions around which the herbicide can be applied, and (2) add the option of a second application to control regrowth of common ragweed in areas specified on the product label.

## **Chemistry Assessment**

A chemistry assessment was not required for this application.

### **Health Assessments**

Adios Ambros Water Soluble Granule is considered to be toxicologically equivalent to the technical grade active ingredient (TGAI), sodium chloride, which is of low acute toxicity by all exposure routes, is not irritating to the eye, slightly irritating to the skin, and is not a dermal sensitizer.

Occupational and bystander exposure is expected to be low and not a concern due to the low toxicity of the product. The risk due to occupational, residential and bystander exposure is acceptable when the product is used according to label directions.

A dietary exposure assessment was not required for this application.

#### **Environmental Assessment**

An environmental assessment was not required for this application.

### **Value Assessment**

Changes to the directions for use on the label of Adios Ambros Water Soluble Granule concerning the conditions at the time of application have been modified to allow the user more flexibility. The addition of the option of a second application to control regrowth will also provide users more flexibility to manage common ragweed in locations specified on the label.

## Conclusion

The Pest Management Regulatory Agency has completed an assessment of the information provided, and has found the information acceptable to support the changes to the product label of Adios Ambros Water Soluble Granule regarding the timing and number of applications.
