

## Evaluation Report for Category B, Subcategory 3.4 Application

**Application Number:** 2012-2592  
**Application:** B.3.4 – New Product Label – Application Method  
**Product:** Ace Retro Salt Water Sanitizing System  
**Registration Number:**  
**Active ingredients (a.i.):** Device  
**PMRA Document Number:** 2325631

### Purpose of Application

The purpose of this application was to register a new chlorine generator for spas, Ace Retro Salt Water Sanitizing System.

### Value Assessment

Efficacy data with results of a trial done in triplicate was submitted to confirm the daily free available chlorine (FAC) output of Ace Retro Salt Water Sanitizing System. The device can generate a maximum of 16 grams FAC per day and the maximum spa volume which can be treated with one Ace Retro Salt Water Sanitizing System unit is 2000 L.

### Chemistry, Health and Environmental Assessment

Chemistry, health and environmental assessments were not required for this application.

### Conclusion

The PMRA has reviewed the information provided and has determined Ace Retro Salt Water Sanitizing System is acceptable for registration.
