

Evaluation Report for Category B, Subcategory 4.6 Application

Application Number: 2013-4903
Application: B.4.6 – Fulfill Conditions of Registration with Full Registration
Product: Kasugamycin Technical Bactericide
Registration Number: 30590
Active ingredients (a.i.): Kasugamycin (present as hydrochloride hydrate)
PMRA Document Number : 2456001

Purpose of Application

The purpose of this application was to address the conditions of full registration for the subject product.

Health Assessments

Following the original review of kasugamycin, full registration with conditions was granted for kasugamycin and its end-use product Kasumin 2L Bactericide (PCP # 30591). The final reports of the storage stability studies in/on tomatoes (RAC and processed fractions), walnut, and Canadian pear field trial study, which include the concurrent storage stability study on pears, were submitted. The data were considered adequate. Thus, the conditions to support full registration of kasugamycin and the end-use product Kasumin® 2L Bactericide have been fulfilled.

Conclusion

The conditions of full registration for the subject product have been satisfied.
