

Evaluation Report for Category B, Subcategory 4.6 Application

Application Number: 2014-5314

Application: Submission to fulfill conditions of registration on a product with full registration

Product: Mergal BIT20W

Registration Number: 31465

Active ingredients (a.i.): 1,2-benzisothiazolin-3-one

PMRA Document Number : 2499806

Background

Mergal BIT20W is an end-use product containing 1,2-benzisothiazolin-3-one (19.18%) for use as a material preservative. This antimicrobial product has full registration since August 2014, with the storage stability data and corrosion characteristics information as conditions of registration.

Purpose of Application

The purpose of this application was to fulfil the conditions of registration.

Chemistry Assessment

The storage stability data and corrosion characteristics were assessed to be acceptable.

Health, Environmental, and Value Assessments

Health environmental and value assessments were not required for this application.

Conclusion

The PMRA has assessed the information provided and has determined that the conditions of registration have been fulfilled.
