

Evaluation Report for Category B, Subcategory B.3.11 Application (New or Changes to Product Label –New Pests)

Application Number: 2016-7845
Application: Category B.3.11 (New or changes to product label – New pests)
Product: DuPont Travallas Herbicide
Registration Number: 31685
Active ingredients (a.i.): 3 g/L metsulfuron-methyl, 30 g/L thifensulfuron-methyl, and 150 g/L fluroxypyr present as 1-methylheptyl ester
PMRA Document Number : 2762830

Background

Travallas Herbicide is registered for post-emergent control of broadleaf weeds in spring and durum wheat and spring barley not under-seeded to legume or grasses. It is labelled for application alone or in tank mix with listed herbicides, e.g., MCPA ester, for control of a broader spectrum of weeds. For specific details of uses, application rates and methods, precautions, restrictions, and personal protective equipment requirements, refer to the product label.

Purpose of Application

The purpose of this application was to amend the registration of DuPont Travallas Herbicide to include a claim of shepherd's purse (up to 20 cm) control when it is applied alone and a claim of annual sow-thistle control when it is applied in a tank mixture with MCPA ester.

Chemistry, Health, and Environmental Assessments

Chemistry, health, and environmental assessments were not required as there was no change to product chemistry, product formulation, or use pattern.

Value Assessment

Value information submitted for review included data from field trials conducted in the Canadian Prairies in 2015 and 2016. The information available demonstrated that the application of DuPont Travallas Herbicide alone provided acceptable control of shepherd's-purse and application of DuPont Travallas Herbicide in the tank mixture with MCPA ester provided acceptable control of annual sow-thistle.

Conclusion

The PMRA has completed an assessment of the subject application and has found the information sufficient to support the requested amendment to the registration of DuPont Travallas Herbicide.
