

Evaluation Report for Category B, Subcategory 4.6 Application

Application Number: 2017-2067
Application: Submission to fulfill requirements of registration on a product with full registration
Product: Final Rodenticide Place Pacs Commercial Kills Rats & Mice
Registration Number: 25773
Active ingredient (a.i.): Brodifacoum
PMRA Document Number: 2894530

Purpose of Application

The purpose of this application was to fulfill the outstanding chemistry data requirements for storage stability and corrosion characteristics for the end-use product, Final Rodenticide Place Pacs Commercial Kills Rats & Mice.

Chemistry Assessments

Final Rodenticide Place Pacs Commercial Kills Rats & Mice is formulated as a pellet containing brodifacoum at a concentration of 0.0059 %. This end-use product has a density of 1.33 g/mL and is expected to have a near neutral pH. All the required chemistry data for Final Rodenticide Place Pacs Commercial Kills Rats & Mice have been provided, reviewed and found to be acceptable.

Health, Environmental and Value Assessment

Health, environmental and value assessments were not required for this application.

Conclusion

The Pest Management Regulatory Agency has completed an assessment of the information provided for Final Rodenticide Place Pacs Commercial Kills Rats & Mice and has determined it sufficient to fulfill the outstanding chemistry requirement.
