

Evaluation Report for Category B, Subcategory 3.12, 3.13 Application

Application Number: 2018-0348
Application: Changes to Product Labels – New Site or Host and Precautions
Product: Botector
Registration Number: 30554
Active ingredients (a.i.): *Aureobasidium pullulans* DSM 14940 and DSM 14941
PMRA Document Number : **2908982**

Purpose of Application

The purpose of this application was to amend the storage stability statement on the product label and to expand the use of Botector for suppression of grey mold (*Botrytis cinerea*) in parsley and Crop group 19, herbs and spices grown in greenhouse and in the field.

Chemistry Assessment

The results of the storage stability study submitted by the applicant support the proposed amended storage statement on the label.

Health and Environmental Assessments

Health, environmental and value assessments were not required for this application.

Value Assessments

Value information was provided to support the registration of Botector for suppression of grey mold (*Botrytis cinerea*) in parsley and Crop Group 19, herbs and spices grown in greenhouse and in the field. Based on the currently registered use pattern of Botector, this use is supported.

Conclusion

The Pest Management Regulatory Agency has completed a review of the submitted information and has found it sufficient to amend the product label and expand the use pattern for Botector.
