

Evaluation Report for Category B, Subcategory 3.12 Application

Application Number: 2022-1909
Application: Changes to Product Labels – New Site or Host
Product: AXXE Broad Spectrum Herbicide
Registration Number: 32719
Active ingredient (a.i.): Ammonium Salt of Fatty Acid
PMRA Document Number: 3496138

Purpose of Application

The purpose of this application was to amend the product label of AXXE Broad Spectrum Herbicide by clarifying the crops in and around which this product can be applied.

Health Assessments

AXXE Broad Spectrum Herbicide is of low acute toxicity by the oral, dermal, and inhalation routes, is mildly to moderately irritating to the skin, moderately irritating to the eyes, and is not a dermal sensitizer.

Occupational, bystander, and residential exposure is not expected to result in health risks of concern when the product is used according to label directions.

The dietary exposure to ammonium salt of fatty acid is unchanged, therefore, the risk due to dietary exposure from food and drinking water remains acceptable and will not pose health risks of concern to any segment of the population, including infants, children, adults, and seniors.

Environmental Assessment

The uses that have been specified on the label for legume vegetables, fruiting vegetables, tree nuts, and industrial hemp do not represent an increased risk to the environment when this product is used according to label instructions.

Value Assessment

As the purpose of this application was to clarify the crops in and around which AXXE Broad Spectrum Herbicide can be used and since there was no change to the use pattern, including the application rate, methods, and timing, value information was not required.

Chemistry Assessment

A chemistry assessment was not required for this application.

Conclusion

The Pest Management Regulatory Agency has completed an assessment of the information provided, and has found the information acceptable to support the amendment of the AXXE Broad Spectrum Herbicide product label.
