

## Evaluation Report for Category B.4.1 Application

**Application Number:** 2008-0655  
**Application:** Category B.4.1  
**Product:** ClearOut 41 Plus Herbicide  
**Registration Number:** 28322  
**Active ingredients (a.i.):** Glyphosate  
**PMRA Document Number :** 1730250

### Background

Clearout 41 Plus Herbicide (Reg. No. 28322) has been conditionally registered since May 11, 2006. The condition of the registration was based upon, 1) the conversion of the TGAI, Clearout Glyphosate Technical (Reg. No. 28321), to full registration, and 2) the submission of storage stability data for ClearOut 41 Plus Herbicide. The storage stability data were submitted for review under Appl. No. 2006-4489 and found to be complete and acceptable for fulfilling the product chemistry data requirements for Clearout 41 Plus Herbicide. In addition, the conditions for converting the TGAI from a conditional registration to full registration have been met (Appl. No. 2008-0654).

### Purpose of Application

The purpose of this application was to convert Clearout 41 Plus Herbicide from a conditional registration to full registration.

### Chemistry, Health, Environmental and Value Assessments

A chemistry assessment of the storage stability data was conducted under Appl. No. 2006-4489 and found to be complete and acceptable for fulfilling the product chemistry data requirements for Clearout 41 Plus Herbicide. Health, environmental and value assessments were not required.

### Conclusion

The PMRA has completed an evaluation of the subject application and has found the information sufficient to amend the registration of ClearOut 41 Plus Herbicide. Based on the provision of acceptable storage stability data and the conversion of ClearOut Glyphosate Technical from a

conditional registration to full registration, the conditions for converting ClearOut 41 Plus Herbicide from a conditional registration to full registration have been met.
