

Evaluation Report for Category B, Subcategory 4.1 Application

Application Number: 2008-3978
Application: B.4.1 – Conversion to Full Registration
Product: DE-750 Herbicide
Registration Number: 28522
Active ingredients (a.i.): Aminopyralid
PMRA Document Number : 2463994

Purpose of Application

The purpose of this application was to convert the conditional registration of DE-750 Herbicide to full registration.

Chemistry, Environmental and Value Assessment

Chemistry, environmental and value assessments were not required for this application.

Health Assessments

To support the full registration of DE-750 Herbicide, additional residue data regarding the enforcement method for analysis of aminopyralid in plant matrices, and the freezer storage stability data up to 16 months for aminopyralid in grass and wheat were submitted.

The completion of the aminopyralid database fulfilled the requirements for conversion of conditional registration to full registration. The residue definition and the existing MRLs are still acceptable. The full registration of DE-750 Herbicide will not pose an unacceptable risk to any segment of the population, including infants, children, adults and seniors.

Conclusion

The PMRA has reviewed data provided to address the condition of registration of the subject product. Based on this review, the condition of registration has been addressed and the product is acceptable for full registration.
