

Evaluation Report for Category B, Subcategory 3.14, Category C, Subcategory 2.3 and 2.4 Application

Application Number: 2014-5394
Application: Changes to Product Label - Classification, Changes to End-Use Product Chemistry – Identity and proportion of formulants
Product: RootX WP Herbicide
Registration Number: 25934
Active ingredients (a.i.): Dichlobenil
PMRA Document Number : 2592841

Purpose of Application

The purpose of this application was to change the classification of the end-use product, RootX WP Herbicide from commercial to domestic and to modify the formulation.

Chemistry, Environmental and Value Assessments

Chemistry, environmental and value assessments were not required for this application.

Health Assessments

No toxicological and food residue information was reviewed or required for this submission.

The change to domestic class registration and in formulation for RootX WP Herbicide is not expected to increase exposure over the currently registered use pattern for dichlobenil on sewer roots. A risk assessment was conducted and no health risks of concern are expected when workers or homeowners follow the label directions and wear the personal protective equipment identified on the label.

Conclusion

The Pest Management Regulatory Agency has completed an assessment of the available information and is able to support the change in classification from commercial to domestic and the modification of the formulation for the product, RootX WP Herbicide.
