

Evaluation Report for Category B, Subcategory 3.8 Application

Application Number: 2016-1243
Application: B.3.8 - Change Re-Entry Interval
Product: Timorex Gold
Registration Number: 30910
Active ingredients (a.i.): Tea Tree Oil
PMRA Document Number : 2628240

Purpose of Application

The purpose of this application was to change the restricted entry interval (REI) and add ventilation requirements for greenhouse applications of Timorex Gold.

Chemistry, Environmental and Value Assessment

Chemistry, environmental and value assessments were not required for this application.

Health Assessments

The restricted entry interval (REI) for greenhouse applications on the label for Timorex Gold is to be reduced to 4 hours and greenhouse vents will be required to be open with ventilation fans operational during the REI. These changes are not expected to impact on occupational exposures and risks from tea tree oil.

Conclusion

The PMRA has reviewed the information provided in support of this amendment. Based on this review, the change to the restricted entry interval (REI) and the addition of ventilation requirements for greenhouse applications is acceptable.
