

Evaluation Report for Category B, Subcategory 4.6 Application

Application Number: 2016-5100
Application: To fulfil the requirements on a product with full registration
Product: Verimark Insecticide
Registration Number: 30892
Active ingredient (a.i.): Cyantraniliprole
PMRA Document Number: 2784993

Purpose of Application

The purpose of this application was to remove potato seed-piece treatment from the label of DuPont Verimark Insecticide, in order to fulfil the requirements of full registration for this product.

Health Assessments

The removal of potato seed-piece treatment from the registered label of Verimark Insecticide reduces exposure and risk, provided that workers follow the directions and wear the personal protective equipment as identified on the label.

Toxicology and dietary exposure assessments were not required for this application.

Value Assessment

Value information is acceptable for the removal of potato seed-piece treatment from the registered label of Verimark Insecticide, provided the label directions are followed.

Chemistry and Environmental Assessments

Chemistry and environmental assessments were not required for this application.

Conclusion

The Pest Management Regulatory Agency has completed an assessment of the information provided, and has found the information sufficient to support the removal of potato seed-piece treatment from the label of Verimark Insecticide, and to consider the requirements of registration for this product fulfilled.
