

## Evaluation Report for Category B, Subcategory 4.6 Application

**Application Number:** 2019-5202  
**Application:** B.4.6: Fulfill Requirements of Registration  
**Product:** Mosquiron 0.12CRD-D  
**Registration Number:** 31080  
**Active ingredients (a.i.):** Novaluron  
**PMRA Document Number:** 3080190

### Purpose of Application

The purpose of this application was to fulfill the requirements of registration, which were storage stability and corrosion characteristics.

### Chemistry Assessment

Mosquiron 0.12CRD-D is formulated as a pellet containing novaluron at a concentration of 0.12%. This end-use product has a density of 1.071 g/cm<sup>3</sup> and pH of 4.24. The required chemistry data for Mosquiron 0.12CRD-D have been provided, reviewed and found to be acceptable.

### Health, Environmental and Value Assessments

Health, environmental and value assessments were not required for this application.

### Conclusion

The PMRA has reviewed the information provided to address the requirements for registration (storage stability and corrosion characteristics). Based on the results of that review, the requirements for registration (storage stability and corrosion characteristics) have been addressed.
