

## Evaluation Report for Category L, Subcategory 1.1 Application

**Application Number:** 2019-1921  
**Application:** Submission Subject to *Protection of Proprietary Interests in Pesticide Data Policy* / Data Compensation Assessment  
**Product:** Kicker Herbicide  
**Registration Number:** 34432  
**Active ingredient (a.i.):** Clomazone  
**PMRA Document Number :** 3121688

### Purpose of Application

The purpose of this application was to register an end-use product, Kicker Herbicide, for use on terrestrial food crops under the PPIP program, based on precedent.

### Chemistry Assessment

Kicker Herbicide is formulated as a microcapsule suspension containing clomazone at a concentration of 360 g/L. This end-use product has a density of 1.16 g/ cm<sup>3</sup> and pH of 6.53. The chemistry requirements for this product have been fulfilled.

### Health and Environmental Assessments

Health and environmental assessments were not required for this application.

### Value Assessment

Registration of a generic product may increase product competition in the marketplace, which may in turn reduce purchasing costs of similar products. Labelled uses and claims found on the Kicker Herbicide label were compared to the precedent product label and were supported.

### Conclusion

The Pest Management Regulatory Agency has completed an assessment of the information provided, and has found the information sufficient to support the registration of Kicker Herbicide.
