HAGEN  
Flea Killer Pump Spray  
For Cats

Kills fleas and American dog and brown ticks on cats. \*Aids in repelling biting flies, gnats and mosquitoes.  
\*Contains residuals to continue killing fleas.

**DIRECTIONS FOR USE:** Use ONLY in well-ventilated area, preferably outdoors. Shake well before using. Wet animal's head with water to drive pests onto body. Hold bottle in upright position 25-30 cm from pet and spray entire body, beginning at the tail and working towards the head. Do NOT spray animal's face, eyes or genitals. As you spray, fluff hair so that the spray will penetrate the skin. Spray only until hair is damp-not wet. Spray ticks directly. Pay special attention to neck, hindquarters, areas under legs, around the tail and between toes. Also spray bed and living quarters if needed. Repeat as necessary. Do not spray more than once a week. Do not use on cats under 12 weeks of age. Consult a veterinarian before using on sick, aged, pregnant or nursing animals or animals receiving drug or other pesticide treatment. A veterinarian should be consulted when pest infestation continues to be a problem on the pet. For effective flea and tick control, treatment of the pet should be combined with the sanitation of any area used by the pet. Vacuum floors, carpets, and furniture (discard vacuum bag after use) and wash the pet's bedding, living quarters, and surrounding areas. If pest problems persist, an insecticidal premise treatment may be required.

**PRECAUTIONS:**

**HUMANS:** KEEP OUT OF REACH OF CHILDREN. Harmful if swallowed, inhaled or absorbed through skin. May irritate eyes, nose and throat. Avoid contact with mouth, eyes, skin and clothing. Avoid breathing fumes or vapors. Wear rubber gloves during application of this product. Avoid contact with pet until dry. After handling or applying, wash hands (or any other skin that came into contact with the product) with soap and water. Avoid product contact with food, food utensils or places where food is prepared or stored.

**PETS:** Harmful if swallowed or inhaled. May irritate eyes, nose and throat. Avoid direct spray of cat's mouth, face, eyes and genitals. Toxic to fish and other aquatic life. Cover fish aquaria in vicinity of treatment area. Toxic to birds.

**FIRST AID:**

**HUMANS:** IF SWALLOWED, call a poison control centre or doctor immediately for treatment advice.

Do not induce vomiting unless told to do so by a poison control centre or doctor. Do not give any liquid to the person. Do not give anything by mouth to an unconscious person.

**IF ON SKIN OR CLOTHING,** take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control centre or doctor for treatment advice.

**IF IN EYES,** hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control centre or doctor for treatment advice.

**IF INHALED,** move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible. Call a poison control centre or doctor for further treatment advice.

**PETS:** Sensitivities may occur after using ANY pesticide for pets. If signs of sensitivity occur, bathe the pet with mild soap and rinse with large amounts of water. If signs continue, consult a veterinarian immediately.

Take container, label or product name and P.C.P. Registration Number with you when seeking medical or veterinary attention.

**TOXICOLOGICAL INFORMATION:** Treat symptomatically.

**DISPOSAL:** Do not re-use container. Wrap and dispose of empty container in regular household garbage.
