DIRECTIONS FOR USE: Kills aphids and whitefly indoors and outdoors on houseplants, vegetables, shrubs and ornamentals. **Aphids:** Aphids fly outdoors from early spring throughout the summer and occur year round on plants indoors. Spray when sighted on buds, new shoots, stems and undersides of leaves. Repeat applications weekly for 2-3 weeks and thereafter as required.

Whiteflies: These tiny moth-like insects can be found throughout the year on the undersides of leaves on indoor plants and throughout the growing season on outdoor plantings. Repeat applications at two week intervals as required to control the scale-like larvae hatching from eggs.

May be used up to day of harvest.

PRECAUTIONS: KEEP OUT OF REACH OF CHILDREN. Concentrated soap may cause eye irritation. Avoid eye contact. Do not use on sweetpeas, nasturtiums or delicate ferns. May cause skin irritation. Wash fruits and vegetables before using.

DISPOSAL: Do not reuse empty container. Wrap empty container and discard in household garbage.

FIRST AID: If in eyes, hold eye open and rinse slowly and gently with water for 15–20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control centre or doctor for treatment advice. If concentrate on skin or clothing, take off contaminated clothing. Rinse skin immediately with plenty of water for 15–20 minutes. Call a poison control centre or doctor for treatment advice.

Take container, label or product name and Pest Control Product Registration Number with you when seeking medical attention.

TOXICOLOGICAL INFORMATION: Treat symptomatically.
