DIRECTIONS FOR USE

This formulation may be used in mosquito adulticiding programs involving residential and recreational areas, overgrown wasteland areas, roadsides and pastures where adult mosquitoes are present in annoying numbers.

Best results are obtained by application when there is a slight breeze of 3.25 km/hr or less. Fog with the breeze so that the wind will carry fog from roads or paths into the area to be treated. Repeat applications as needed to obtain desired reduction in adult mosquito population.

FOR TRUCK-MOUNTED LECO MACHINE

The objective is to treat terrain with 2.5 to 3 grams of pyrethrins and 25 to 31.25 grams of piperonyl butoxide per hectare. Fog this solution with a discharge rate of 60 to 67.5 mL per minute while machine is moving 3.25 km/h and pressure is set at 210.9 g/cu cm. Discharge nozzle is positioned approximately 30 degrees above horizontal off side of truck bed. Delivery rate and travelling speed can be varied slightly, as long as the basic objective of 2.5 to 3 grams actual pyrethrins per hectare is maintained. Use swath width of 100 metres for hectare calculations.

PRECAUTIONS

Harmful if swallowed or absorbed through skin. Avoid breathing vapours or spray “mist. Wear mask or respirator when applying spray mist.”. Avoid contact with skin and eyes. Do not contaminate food or feedstuffs.

This product is toxic to fish and other aquatic animals. Keep out of lakes, streams or ponds. Do not contaminate water by cleaning of equipment or disposal of wastes.

FIRST AID

If in eyes, hold eye open and rinse slowly and gently with water for 15–20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control centre or doctor for treatment advice. If on skin or clothing, take off contaminated clothing. Rinse skin immediately with plenty of water for 15–20 minutes. Call a poison control centre or doctor for treatment advice. If swallowed, call a poison control centre or doctor immediately for treatment advice. Do not induce vomiting unless told to do so by a poison control centre or doctor. Do not give any liquid to the person. Do not give anything by mouth to an unconscious person. Take container, label or product name and Pest Control Product Registration with you when seeking medical attention.

TOXICOLOGICAL INFORMATION: Treat symptomatically. Contains petroleum distillate.

DISPOSAL AND DECONTAMINATION

1. Triple- or pressure-rinse the empty container. Add the rinsings to the spray mixture in the tank.
2. Follow provincial instruction for any required additional cleaning of the container prior to its disposal.
3. Make the empty container unsuitable for further use.
4. Dispose of the container in accordance with provincial requirements.
5. For information on disposal of unused, unwanted product, contact the manufacturer or the provincial regulatory agency. Contact the manufacturer and the provincial regulatory agency in case of a spill, and for clean-up of spills.

STORAGE

Keep container closed. Mix well in drum before sampling and each use. Store in a cool, dry place. Do not store, pour or spill near heat or open flame.

NOTICE TO USER

This Pest Control Product is to be used only in accordance with the directions on the label. It is an offence under the Pest Control Products Act to use this product product in a way that is inconsistent with the directions on the label. The user assumes the risk to persons or property that arises from any such use of this product.

This label transcript service is offered by the Pest Management Regulatory Agency to provide efficient searching for label information. This service and this information do not replace the official hard-copy label. The PMRA does not provide any guarantee or assurance that the information obtained through this service is accurate, current or correct, and is therefore not liable for any loss resulting, directly or indirectly, from reliance upon this service.
