Brominating Tablets for spas and hot tubs:

UBERHAUS SPA BROMINE TABLETS when used as directed, are effective as a spa water sanitizer. Weight per Tablets: 20 g

WARNING: Direct tablet contact may cause bleaching of vinyl or synthetic spa surfaces. Automatic feeding employing these tablets must be totally freed from traces of other spa sanitizers to avoid the probability of an explosion.

**DIRECTIONS FOR USE:**

1. Maintain recommended daily levels as determined by testing kit:

Free available bromine:	3.0 – 5.0 ppm
pH:	7.2 – 7.8
Total Alkalinity:	100 – 150 ppm
Calcium Hardness:	100 – 200 ppm

2. If using an automatic feeding device, fill the chamber(s) with tablets and adjust the flow rate, according to manufacturer's recommendations, to maintain proper bromine residual. Adding tablets to the spa's skimmer basket is an alternative bromine feed method. Daily usage should approximate 5 g of UBERHAUS SPA BROMINE TABLETS per 1,000 L of spa water.

NOTE: Heavy spa usage, and higher temperatures may require higher usage rates to maintain proper bromine residuals.

3. Periodic super chlorinating of spa water is recommended. Follow label instructions of superchlorination product being employed.

NOTE: Persistent foam formations, turbid or malodorous water are indicators on inadequate sanitizer levels. To correct such conditions, superchlorinate spa water by adding superchlorination product. Maintain circulation at least 30 minutes and wait 4 hours before using.

For proper sanitation, spa must be completely drained periodically. The number of days between COMPLETE SPA DRAINAGE is equal to the volume of spa water in litres, divided by 10 times the maximum of daily spa users. Refill spa with water and repeat DIRECTIONS FOR USE. Maximum spa water usage temperature is 40°C. Duration in spa water at 40°C should not exceed 15 minutes.

**PRECAUTIONS : KEEP OUT OF REACH OF CHILDREN. IRRITANT. CORROSIVE.**

Dangerous gas formed when mixed with acid. Do not mix with any other chemical. Strong oxidizing agent. May cause fire or explosion if contaminated. Dust may be harmful or fatal if inhaled. Avoid breathing dust. May be harmful or fatal if swallowed. Do not swallow. Corrosive to eyes and skin. Potential skin sensitizer. Causes eye damage and skin burns. Skin exposure to dust may cause allergic skin reaction in some individuals. Do not get in eyes, skin or clothing. It is recommended to wear rubber gloves and goggles when handling the product.

**FIRST AID:** If swallowed, call a poison control centre or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control centre or doctor. Do not give anything by mouth to an unconscious person.

If in eyes, hold eye open and rinse slowly and gently with water for 15–20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control centre or doctor for treatment advice.

If on skin or clothing, take off contaminated clothing. Rinse skin immediately with plenty of water for 15–20 minutes. Call a poison control centre or doctor for treatment advice.

If inhaled, move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible. Call a poison control centre or doctor for further treatment advice.

Take container, label or product name and Pest Control Product Registration Number with you when seeking medical attention.

**TOXICOLOGICAL INFORMATION :** Treat symptomatically.

**STORAGE :** Keep product dry in tightly closed original container when not in use. Store in a cool, dry, well ventilated area away from heat, open flame, sunlight and other chemicals.

**DISPOSAL:** Rinse container thoroughly before discarding. Do not reuse empty container. Offer for recycling if available, or dispose in accordance with local and provincial regulations. For information on the disposal of unused, unwanted product or on the clean-up of spills, contact the Provincial Regulatory Agency or the manufacturer.

**ENVIRONMENTAL HAZARDS:** This product is toxic to fish.

**DO NOT** contaminate irrigation or drinking water supplies or aquatic habitats by cleaning of equipment or disposal of wastes.
