K-G SPRAY-PAK INC.  
8001 Keele Street  
Vaughan, Ontario  
L4K 1Y8  
905-669-9855

**DIRECTIONS:** Use ONLY in a well-ventilated area, preferably outdoors. For control of dog and cat fleas, American Dog and Brown Dog Ticks. SHAKE CAN WELL BEFORE USING and invert the container upside down when spraying the pre-foamed shampoo out. Wet dog or cat with warm water. You can spray the pre-foamed shampoo directly to the pet or you can spray the foam into your hand and then apply to the pet. Apply shampoo liberally beginning at the head and working backward until entire body is covered. Pay special attention to neck and hindquarters. Do not treat eyes, face or genitals of pet. For difficult infestations, allow lather to remain on animal for 2-3 minutes. Rinse thoroughly. Repeat as necessary. Do not use on sick animals. Do not use on animals under drug or other pesticide treatment. Do not use on puppies or kittens under 8 weeks of age or nursing females. Consult a veterinarian before using on pregnant animals. Treatment must be repeated only if the pest problem persists or reoccurs.

For effective flea and tick control, treatment of the pet should be combined with the sanitation of any area used by the pet. Vacuum floors, carpets, and furniture (discard vacuum bag after use) and wash the pet's bedding, living quarters, and surrounding areas. If pest problems persist, an insecticidal treatment of the premises may be required. A veterinarian should be consulted when flea infestation continues to be a problem on the pet.

**PRECAUTIONS:**

**PHYSICAL AND CHEMICAL HAZARDS:** Contents under pressure. Do NOT place in hot water or near radiators, stoves or other sources of heat, or store at temperatures over 50°C.

**HUMANS:** KEEP OUT OF REACH OF CHILDREN. Harmful if swallowed, inhaled or absorbed through skin. Avoid contact with mouth, eyes, skin and clothing. Avoid contact with pet until dry. Avoid skin contact by wearing rubber gloves. After handling or applying, wash gloved hands (or any other skin that came into contact with the product) with soap and water. Avoid product contact with food, food utensils or places where food is prepared or stored.

**PETS:** Harmful if swallowed or inhaled. May irritate eyes, nose and throat. Do not spray in mouth, eyes, or face, or on genitals of pet. Discontinue use if dermal or nasal irritation develops. Toxic to fish and other aquatic life. Cover fish aquaria in vicinity of treatment area. Toxic to birds.

**FIRST AID:**

**HUMANS:** IF INHALED, move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to mouth, if possible. Call a poison control centre or doctor for further treatment advice. IF ON SKIN OR CLOTHING, take off contaminated clothing. Rinse skin immediately with plenty of water for 15–20 minutes. Call a poison control centre or doctor for treatment advice. IF SPRAYED IN EYES, hold eye open and rinse slowly and gently with water for 15–20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control centre or doctor for treatment advice. IF SWALLOWED, call a poison control centre or doctor immediately for treatment advice. Do not induce vomiting unless told to do so by a poison control centre or doctor. Do not give any liquid to the person. Do not give anything by mouth to an unconscious person. Take container, label or product name and Pest Control Product Registration Number with you when seeking medical attention.

**PETS:** Sensitivities may occur after using ANY pesticide for pets. If signs of sensitivity occur bathe your pet with mild soap and rinse with large amounts of water. If signs continue, consult a veterinarian immediately. Take container, label or product name and Pest Control Product Registration Number with you when seeking medical or veterinary attention.

**TOXICOLOGICAL INFORMATION:** Treat symptomatically. This product contains petroleum distillates. Vomiting may cause aspiration pneumonia.

**DISPOSAL:** When container is empty, press valve to release all pressure, then dispose of in regular household garbage. Do not puncture or incinerate container, even when empty.
