### PRECAUTIONS WARNING

#### KEEP OUT OF REACH OF UNAUTHORIZED PERSONNEL

CORROSIVE TO SKIN. INJURIOUS TO EYES. IRRITATING DUST. HARMFUL IF SWALLOWED.

Do not get in eyes, on skin, or on clothing. Wear a long-sleeved shirt, long pants and chemical-resistant gloves when handling product. Avoid breathing dusts. Wear goggles or face shield when handling. Wash thoroughly after handling.

#### FIRST AID

**In Case of Eye Contact:** Wash immediately and continuously with flowing water for at least 30 minutes. Remove contact lenses after the first 5 minutes and continue washing. Obtain prompt medical consultation, preferably from an ophthalmologist.

**Skin Contact:** Immediately wash thoroughly any size exposure with non-abrasive soap and large quantities of water for 30 minutes while removing contaminated clothing and shoes. Destroy contaminated leather items such as shoes, belts, and watchbands. Further amounts of this material may be removed from the skin by repeatedly spraying/swabbing

the skin with polyethylene glycol or polypropylene glycol mixture, alternating with rinsing with large quantities of water for 30 minutes. Example decontamination mixtures include PEG300/ethanol (or industrial methylated spirits) 2:1, or available polypropylene/rapeseed oil proprietary mixtures, or polyvinylpyrrolidone/detergent mixtures.

**Inhalation:** Move person to fresh air. If person is not breathing, call an emergency responder or ambulance, then give artificial respiration; if by mouth to mouth use rescuer protection (pocket mask etc). Call a poison control center or doctor for treatment advice. If breathing is difficult, oxygen should be administered by qualified personnel.

**Ingestion:** Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor. Never give anything by mouth to an unconscious person.

Take container, label or product name and Pest Control Product Registration Number with you when seeking medical attention

**NOTE TO PHYSICIAN:** Probable mucosal damage may contraindicate the use of gastric lavage

**TOXICOLOGICAL INFORMATION:** Treat symptomatically

### **ENVIRONMENTAL PRECAUTIONS**

This product is toxic to fish and aquatic organisms. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. Do not contaminate water by cleaning of equipment or disposal of wastes.

**NOTICE** Do not ship or store with food, feeds, drugs, or clothing.

**STORAGE:** Do not contaminate water, food or feed by storage or disposal. Keep package tightly closed when not in use.

### **DISPOSAL:**

1. Triple or pressure-rinse the empty container. Add the rinsings to the treatment site.
2. Follow provincial instructions for any required additional cleaning of the container prior to its disposal.
3. Make the empty container unsuitable for further use.
4. Dispose of the container in accordance with provincial requirements.
5. For information on the disposal of unused, unwanted product, contact the manufacturer or the provincial regulatory agency. Contact the manufacturer and the provincial regulatory agency in case of a spill and for clean-up of spills.

**NOTICE TO USER**

This pest control product is to be used only in accordance with the directions on the label. It is an offence under the *Pest Control Products Act* to use this product in a way that is inconsistent with the directions on the label.

**DIRECTIONS FOR USE**

To be used in the formulation of products registered under the Pest Control Products Act. Any formulator using BIOBAN SP 100 Technical should clearly label the intended use of the finished formulations and the precautions that must be used with such formulation in accordance with all pertinent laws and regulations.

If exposed to air for prolonged periods, this material may give a cloudy solution in water. Such cloudiness may be minimized by adding sufficient caustic (sodium hydroxide).
