Dispar-Mist II Insecticide is designed for use in automatic dispensers (Q-Mist). The automatic dispenser releases a metered dose of 52 mg of insecticide at 15 minutes intervals. For control of flies, mosquitoes, gnats and certain other flying insects in farm buildings, dairies, meat packing plants, food processing plants, restaurants and hospitals. Each can contains enough of product to protect an area of at least 170 m³ of free flow air space for 30 days.

DIRECTIONS FOR USE: Remove protective cap from top of can and insert can into special automatic dispenser. Place dispenser 2-3 metres above floor at a point where air flow will carry insecticide throughout the area. Do not install directly over food or food packaging surfaces.

PRECAUTIONS: KEEP OUT OF REACH OF CHILDREN. In meat packing plants, spray only when plant is NOT in operation. No exposed meat products, ingredients or packaging materials may be left in the room. Cover meat and food handling equipment. Any treated surface that may contact meat products should be washed and rinsed thoroughly with potable water after spraying and before re-use for meat processing.

DO NOT use in nurseries or rooms where infants, ill or aged persons are confined.

Contents under pressure. Container may explode, if heated. Do not expose to temperature above 50 °C. Do not use in presence of open flame or sparks. Do not puncture or incinerate. Avoid contact with skin and inhalation of spray mist. Wash after using. Contents toxic to fish and birds. Do not contaminate food, feed or water. Do not install directly over polished plastic or varnished surfaces.

DISPOSAL : When container is empty, press valve to release all remaining pressure. Dispose of empty container in accordance with provincial requirements. For information on the disposal of unused, unwanted product contact the provincial regulatory agency or the manufacturer. Contact the provincial regulatory agency and the manufacturer in case of a spill, and for clean-up of spills.

FIRST AID: If on skin or clothing: take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control centre or doctor for treatment advice. **If in eyes:** hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control centre or doctor for treatment advice. **If swallowed:** call a poison control centre or doctor immediately for treatment advice. Do not induce vomiting unless told to do so by a poison control centre or doctor. Do not give **any** liquid to the person. Do not give anything by mouth to an unconscious person. **If inhaled:** move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible. Call a poison control centre or doctor for further treatment advice. Take container, label or product name and Pest Control Product Registration Number with you when seeking medical attention.

TOXICOLOGICAL INFORMATION: Treat symptomatically. This product contains petroleum distillate. Vomiting can cause aspiration pneumonia.

NOTICE TO USER: This pest control product is to be used only in accordance with the directions

on the label. It is an offence under the *Pest Control Products Act* to use this product in a way that is inconsistent with the directions on the label. The user assumes the risk to persons or property that arises from any such use of this product.
