NON FOAMING LIQUID MICROBICIDE FOR COOLING WATER

C414 Is used to control algae, bacteria, and fungi in recirculating commercial and industrial water cooling towers.

C414 IS EFFECTIVE AT ALL PH LEVELS AND WILL NOT CAUSE FOAM

DIRECTIONS FOR USE:

DO NOT discharge effluent containing this product Into sewer systems, lakes, streams, ponds, estuaries, oceans, and other waters.

DO not contaminate irrigation or drinking water supplies or aquatic habitats by cleaning of equipment or disposal of wastes.

Prior to the use of C414 in cooling towers, systems should be cleaned to remove algal growth, microbiological slime, and other deposits. Then make an initial slug addition of 350-875 mL of C414 per 10,000 litre of water in the system. Repeat initial dosage until control Is evident. Make subsequent slug additions of 100-875 mL of C414 per 10,000 Litres of water every 2 to 5 days or as needed. The frequency of addition depends upon the relative amount of bleedoff and the severity of the microbiological problem. Slug additions should be made in the sump of water cooling towers.

PRECAUTIONS: KEEP OUT OF REACH OF CHILDREN.

Do not mix with any other chemical. Harmful if swallowed. Avoid contact with skin and eyes. Wear a long-sleeve shirt and long pants, chemical-resistant gloves during handling, clean-up and repair activities. In addition, a chemical-resistant apron is required for workers handling end-use products In industrial settings. Wash thoroughly after handling. Immediately remove contaminated clothing and wash before reuse.

DISPOSAL:

1. Triple or pressure-rinse the empty container. Add the rinsings to the treatment site.
2. Follow provincial instructions for any required additional cleaning of the container prior to Its disposal.
3. Make the container unsuitable for further use.
4. Dispose of the container In accordance with provincial requirements.
5. For information on the disposal of unused, unwanted product, contact the manufacturer or the provincial regulatory agency. Contact the manufacturer and the provincial regulatory agency in case of a spill.
