Side Panel

DIRECTIONS FOR USE: SHAKE WELL. Do NOT administer by mouth. Remove cap and dispense a puff of lather about the size of a baseball onto the hair of the animal. Spread this lather over the animal and work evenly into coat of hair. Keep away from pet's eyes and mouth. After about 15 minutes, dry with a towel. Comb and brush the animal. Do NOT use on animals under 12 weeks of age. Consult a veterinarian before using on sick, aged, pregnant or nursing animals receiving drug or other pesticide treatment. Do NOT treat more often than once a week.

For effective flea & tick control, treatment of the pet should be combined with sanitation of any area used by the pet. Vacuum floors, carpets and furniture (discard vacuum bag after use) and wash the pet's bedding, living quarters and surrounding areas. If pest problems persist, an insecticidal premise treatment may be required. A veterinarian should be consulted when pest infestation continues to be a problem on the pet.

PRECAUTIONS: HUMANS: KEEP OUT OF REACH OF CHILDREN. Avoid contact with pets until dry. After handling or applying, wash hands (or any other skin that came into contact with the product) with soap and water. Wear rubber gloves during application of this product. May be harmful if swallowed, inhaled, or absorbed through the skin. Avoid prolonged contact with skin. If irritation develops, stop use. Do not ingest. Do not use near birds, fish, feed or foodstuffs. PETS: Avoid contact with the animal's mouth, face, eyes and genitals. Do NOT allow animal to lick the suds from the coat or to ingest any of the foam.

FIRST AID: HUMANS: IF SWALLOWED, call a poison control centre or doctor immediately for treatment advice. Do not induce vomiting unless told to do so by a poison control centre or doctor. Do not give any liquid to the person. Do not give anything by mouth to an unconscious person. IF ON SKIN OR CLOTHING, Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. call a poison control centre or doctor for treatment advice. IF IN EYES, hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control centre or doctor for treatment advice.

PETS: Sensitivities may occur after using ANY pesticide for companion animals. If signs of sensitivity occur, bathe the pet with mild soap and rinse with large amounts of water. If signs continue, consult a veterinarian immediately.
