Etobicoke, ON M9W 4Z6

(TEL): 416-675-1638 OR 1-800-561-7302

DIRECTIONS

Hold can upright, point nozzle away from persons and press valve.

FLYING INSECTS: For flies, mosquitoes, Indian meal moth, flour moth and certain other flying insects – close doors and windows. Apply for 2 to 3 seconds per 100 m³ of space. Direct mist upwards to all parts of the room especially windows and other light sources. Also direct mist into areas where insects are present, and around stored product containers. Keep in constant motion at least 1 m from interior walls, fabrics and furniture, whenever possible, keep doors and windows closed for 15 minutes. Sweep up and destroy dead insects. Ensure proper ventilation after sealed areas have been treated.

CRAWLING INSECTS: Cockroaches, silverfish and ants. Spray hiding places such as baseboards, moist areas, and openings around sinks, drains and pipes, behind cabinets and storage areas. Spray ant trails around doorsills, window frames, or in ant nests. Insects must be contacted to be killed.

PRECAUTIONS: KEEP OUT OF REACH OF CHILDREN. Contents under pressure. Do not place in hot water or near radiators, stoves or other sources of heat. Do not puncture or incinerate can or store at temperatures over 50° C. Do not spray into or near open flame. Do not remain in treated areas. Do not spray food or utensils. Remove fish bowls and birdcages before spraying. In Meat Packing and food processing plants, only spray when plant is not in operation. No exposed meat products, ingredients or packaging material to be left in the room and cover food-handling equipment. Any treated surface that may contact meat food products or other food products should be washed and rinsed thoroughly with potable water after spraying and before re-use for food processing. In homes and dwellings, remove or cover all exposed food and cooking utensils before spraying. Do not use in nurseries or rooms where infants, ill or aged persons are confined. Avoid contact with skin, eyes, clothing and inhalation of spray mist. Wash hands after using.

FIRST AID: If swallowed: Call a poison control centre or doctor immediately for treatment advice. Do not induce vomiting unless told to do so by a poison control centre or doctor. Do not give any liquid to the person. Do not give anything by mouth to an unconscious person.
If on skin or clothing: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15–20 minutes. Call a poison control centre or doctor for treatment advice.
If in eyes: Hold eye open and rinse slowly and gently with water for 15–20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control centre or doctor for treatment advice.

Take container, label or product name and Pest Control Product Registration Number with you when seeking medical attention.

TOXICOLOGICAL INFORMATION: Treat symptomatically.

DISPOSAL: When container is empty, press valve to release all pressure. Dispose of the container in accordance with provincial requirements. For information on disposal of unused, unwanted product, contact the manufacturer or the provincial regulatory agency. Contact the manufacturer and the provincial regulatory agency in case of a spill, and for clean up of spills.

NOTICE TO USER: This pest control product is to be used only in accordance with the directions on the label. It is an offense under the Pest Control Products Act to use this product in a way that is inconsistent with the directions on the label. The user assumes the risk to persons or property that arises from any such use of this product.
