PRECAUTIONS

PREVENT ACCESS BY UNAUTHORIZED PERSONNEL

Fatal or Poisonous if swallowed. May irritate eyes and skin. Avoid contact with skin, eyes or clothing. Wash thoroughly with soap and water after handling. Remove and launder contaminated clothing before reuse.

FIRST AID

If swallowed: Call a poison control centre or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control centre or doctor. Do not give anything by mouth to an unconscious person. Take container, label or product name and Pest Control Product Registration Number with you when seeking medical attention.

For eye contact: Hold eye open and rinse slowly and gently with water for 15–20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control centre or doctor for treatment advice.

For skin or clothing contact: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15–20 minutes. Call a poison control centre or doctor for treatment advice.

If inhaled: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible. Call a poison control centre or doctor for further treatment advice.

TOXICOLOGICAL INFORMATION: Acephate is a cholinesterase inhibitor. If signs of cholinesterase inhibition appear, atropine is antidotal. 2-PAM is also antidotal and may be used in conjunction with atropine, but should not be used alone.

FOR CHEMICAL EMERGENCY: spill, leak, fire, exposure, or accident call CHEMTREC 1-800-424-9300

ENVIRONMENTAL PRECAUTIONS

Toxic to aquatic organisms.

DO NOT discharge effluent containing this product into sewer systems, lakes, streams, ponds, estuaries, oceans or other waters.

DIRECTIONS FOR USE

To be used only in the manufacture of products which are registered under the *Pest Control Products Act*.

STORAGE

Store in a cool, dry place. Protect from excessive heat. Keep this product in original container. Do not store or transport near food or feed.

SPILL HANDLING

Make sure all personnel involved with spill are aware of the hazards associated with this material.

A small spill can be handled routinely considering the physical and hazardous

2024-1378

2024-06-04

properties of the product as well as the location of the spill.

Use adequate ventilation and wear an air-supplied respirator to prevent inhalation contact. Wear protective clothing and goggles to prevent skin and eye contact. Sweep up the powder, being careful not to create a dust. Place sweepings in an open drum. Cover the contaminated area with a common household granular detergent. Using a stiff brush, work the detergent into the cracks and crevices, and allow to stand for 2 to 3 minutes. Be careful to completely avoid skin or eye contact; do not splatter one's self or bystanders. Spread a suitable absorbent such as clay on the slurred liquid and shovel the absorbed material into an open drum. Repeat if necessary. Flush the area with water, while observing the proper environmental precautions. Seal drum and dispose of contaminated material in accordance with municipal or provincial recommendations.

DISPOSAL

Canadian manufacturers should dispose of unwanted active ingredients and containers in accordance with municipal and provincial regulations. For additional details and clean up of spills, contact the manufacturer and the provincial regulatory agency.

NOTICE TO USER

This pest control product is to be used only in accordance with the directions on the label. It is an offence under the Pest Control Products Act to use this product in a way that is inconsistent with the directions on the label.
