DIRECTIONS FOR USE: Shake well before using. Close doors and windows and other openings and remove all animals from buildings before application. Apply with a mist fogger (non-thermal) or manual pump at a rate of 200 mL per 100 m³. Wear a mask or respirator and protective clothing. Apply to cracks, crevices and walk surfaces. Direct spray upwards, towards ceilings and walls or straight on insects. Keep area closed for 10-20 minutes after fogging. Ventilate thoroughly before re-entering treated areas. Repeat as necessary. When using a mist fogger, the equipment must be maintained and operated in accordance with the manufacturer's instruction manual. Sweep dead insects.

NOTE: Treatment should be made only before or after milking.

PRECAUTIONS: KEEP OUT OF REACH OF CHILDREN. Not for use on animals or humans.

Apply only when the dairy is not in operation. Cover or remove all food processing surfaces, milk, utensils, and dairy processing equipment. After spraying, wash all surfaces that may contact milk food and rinse thoroughly with potable water before reuse. Avoid contamination of feed and water troughs.

Thoroughly clean all food processing equipment with potable water before resuming operations. Avoid contact with skin. Do not inhale spray mist. Wash after using. Do not store near food water or litter. Keep in original container during storage. Store in a cool, well ventilated place. Do not use in areas where beekeeping equipment or supplies are being stored. Do not contaminate any body of water. Toxic to fish. Spray only when temperature is below 32'C. Extinguish any open flame such as pilot lights.

FIRST AID: **If inhaled**, Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to mouth, if possible. Call a poison control centre or doctor for further treatment advice. **If on skin or clothing**, Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control centre or doctor for treatment advice. **If in eyes**, Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control centre or doctor for treatment advice. **If swallowed**, Call a poison control centre or doctor immediately for treatment advice. Do not induce vomiting unless told to do so by a poison control centre or doctor. Do not give **any** liquid to the person. Do not give anything by mouth to an unconscious person. Take container, label or product name and Pest Control Product Registration Number with you when seeking medical attention.

TOXICOLOGICAL INFORMATION: Treat symptomatically.

DISPOSAL: 1. Triple- or pressure-rinse the empty container. Add the rinsings to the spray mixture in the tank. 2. Follow provincial instruction for any required additional cleaning of the container prior to its disposal. 3. Make the empty container unsuitable for further use. 4. Dispose of the container in accordance with provincial requirements. 5. For information on disposal of unused, unwanted product, contact the manufacturer or the provincial regulatory agency. Contact the manufacturer and the provincial regulatory agency in case of a spill, and for clean-up of spills.

NOTICE TO USER: This pest control product is to be used only in accordance with the directions on the label. It is an offence under the *Pest Control Products Act* to use this product in a way that is inconsistent with the directions on the label. The user assumes the risk to persons or property that arises from any such use of this product.
