CLEARWATER

ALGIBAN GRAN

STABILIZED CHLORINATING GRANULES

Controls bacteria and algae in Swimming Pool Water

ACTIVE INGREDIENT:

Available chlorine (present as Sodium Dichloro-s-triazinetrione).....25%

Copper (present as copper sulphate pentahydrate).....3.4%

WARNING:

Staining of pool surfaces may occur due to deposits of copper salts. Excessive levels of copper will increase the probability of this occurrence.

CAUTION

POISON   CORROSIVE

DOMESTIC

REG. NO. 21957 P.C.P. ACT

READ THE LABEL BEFORE USING
KEEP OUT OF REACH OF CHILDREN

In most pools, ALGIBAN GRAN is only used twice during the swimming season, once when pool is opened in spring and again just before hotter weather. ALGIBAN GRAN may also be used for effective pool water winterizing in fall.

DIRECTIONS FOR USE:

1. Check copper level using a test kit. To prevent staining, do not allow copper level to exceed 1 ppm.
2. Maintain daily levels as determined by testing kit.

Free available chlorine:	1.0 – 3.0 ppm
pH:	7.2 – 7.8
Total alkalinity:	80 – 120 ppm
Calcium hardness:	200 – 300 ppm
3. For best results, use ALGIBAN GRAN in evening after pool use is discontinued. Use 180-200 g for each 10,000 L of pool water by broadcasting directly across the surface of the water. This dosage will provide 4 ppm of chlorine for immediate algae relief and 0.6 ppm of elemental copper sulfate for on-going protection against all strains of algae spores.
4. Do not re-use pool before chlorine residual is between 1.0 and 3.0 ppm.
5. Maintain normal chlorine residual maintenance program.
6. Maintain pH of 7.2-7.8. A pH over 8.0 may cause staining of pool walls and bottom.

DO NOT contaminate irrigation or drinking water supplies or aquatic habitats by cleaning of equipment or disposal of wastes. DO NOT apply this product in a way that will result in direct contact with adults, children or pets.

PRECAUTIONS:

KEEP OUT OF REACH OF CHILDREN. Strong oxidizing agent. May cause fire or explosion if contaminated. Dangerous gas formed when mixed with acid. It is recommended to wear rubber gloves when handling this product. Avoid contact with skin and eyes. Do not mix with any other chemical. Harmful if swallowed. Keep container closed and store in a cool, dry location. Rinse container thoroughly before discarding. Do not reuse. Wash hands before eating, drinking, chewing gum, using tobacco or using the toilet. DO NOT allow adults, children or pets to enter the treated area until dusts have settled.

DISPOSAL:

Do not reuse empty container. Wrap and dispose of empty container with household garbage. For information on disposal of unused, unwanted product, contact the manufacturer or the Provincial Regulatory Agency. Contact the manufacturer and the Provincial Regulatory Agency in case of a spill, and for clean-up of spills.

FIRST AID:

If on skin or clothing: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control centre or doctor for treatment advice. **If in eyes:** Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control centre or doctor for treatment advice. **If swallowed:** Call a poison control centre or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control centre or doctor. Do not give anything by mouth to an unconscious person. Take container, label or product name and Pest Control Product Registration Number with you when seeking medical attention.

TOXICOLOGICAL INFORMATION:

Treat symptomatically.

ENVIRONMENTAL HAZARDS:

TOXIC to aquatic organisms.
