PRECAUTIONS

POTENTIAL SKIN SENSITIZER.

Corrosive to eyes and skin. Do not get in eyes, on skin or on clothing. Avoid ingestion, inhalation and contact with skin, eyes and clothing. Avoid contamination of food. Wear goggles or a face shield, chemical -resistant gloves, long pants, a long sleeved -shirt, shoes and socks during mixing/loading, clean up and repair.

Formaldehyde can be released during use of this product. It is recommended that this product not be used in circumstances that would result in formaldehyde air concentrations in the workplace exceeding the exposure levels established by occupational health and safety authorities in your jurisdiction. If values exceed this level, it is recommended that NIOSH approved respiratory protection be worn.

Users should wash hands before eating, drinking, chewing gum, using tobacco or using the toilet. Users should remove clothing/protective equipment immediately if pesticide comes in contact with skin through soaked clothing or spills. Then wash skin thoroughly and put on clean clothing and required protective equipment prior to resuming your previous work activity. Discard clothing or other absorbent materials that have been drenched or heavily contaminated with this product's concentrate. Do not reuse them.

FIRST AID

If the final end-use solution is splashed in eyes or on skin, flush thoroughly with water for 15 minutes. For eye contact, get medical attention IMMEDIATELY. If on clothes, remove clothes immediately. If breathed in, move person to fresh air. If swallowed, drink two or three glasses of milk or water. Do not induce vomiting. Call a physician or Poison Control Centre IMMEDIATELY. Take container, label, or product name and Pest Control Product Registration Number with you when seeking medical attention.

TOXICOLOGICAL INFORMATION

This product may produce a sensitization response or allergic reaction in some individuals. No specific treatment, treat symptomatically.

ENVIRONMENTAL HAZARDS

This product is toxic to fish and other aquatic organisms. It is not to be used in circumstances that would cause or allow it to enter lakes, streams, ponds, estuaries, oceans, or other waters in contravention of federal or provincial regulatory requirements. The requirements of applicable laws should be determined before using the product.

NOTICE TO USER

This pest control product is to be used only in accordance with the directions on the label. It is an offence under the Pest Control Products Act to use this product in a way that is inconsistent with the directions on the label. The user assumes the risk to persons or property that arises from any such use of the product.

DIRECTIONS FOR USE

INNER PACKAGE IS WATER SOLUBLE.

Oilfield Applications:

Use at 100 ppm active ingredient based on water content of the system until control is achieved. Maintenance dosage 10-25 ppm. In all applications, expel the product into the system in the areas specified below.

Gas Wells: Introduce through wellhead valving system, so product drops down tubing.

Oil Wells: Drop down tubing when sucker rods are pulled.

Storage Tanks: Drop through thief hatch.

Recirculating Cooling Towers: Pre-clean heavily fouled systems (e.g. with chlorine). Shock dosages of 100 ppm based on the water content of the system may be used until control is achieved. Maintenance dosage 15-50 ppm. Expel the product directly into the sump of the system at a convenient point.

Each stick contains 100 grams of active ingredient.

STORAGE AND DISPOSAL

STORAGE: Store away from oxidizing materials, heat and sources of ignition, and food and food containers. Avoid contact with metals.

DISPOSAL: For information on disposal of unused, unwanted product, contact the manufacturer or the provincial regulatory agency. Contact the manufacturer and the provincial regulatory agency in case of a spill, and for clean-up of spills.

SPILLAGE: Immediately sweep up and remove, then clean the area with detergent and water.

REV 02/07
