DIRECTIONS FOR USE:

To be used only in the manufacture of a pesticide which is registered under the Pest Control Products Act.

PRECAUTIONS: PREVENT ACCESS BY UNAUTHORIZED PERSONNEL.

Caution: Harmful if swallowed, absorbed through skin or inhaled. Avoid breathing dust. Do not get in eyes, on skin or on clothing. May cause skin irritation. Wash thoroughly with soap and water after handling and before eating or drinking.

FIRST AID:

IF IN EYES: Hold eye open and rinse slowly and gently with water for 15 - 20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control centre or doctor for treatment advice.

IF SWALLOWED: Call a poison control centre or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control centre or doctor. Do not give anything by mouth to an unconscious person.

IF INHALED: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible. Call a poison control centre or doctor for further treatment advice.

IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15–20 minutes. Call a poison control centre or doctor for treatment advice.

Take, container, label or product name and Pest Control Product Registration Number with you when seeking medical attention.

ENVIRONMENTAL HAZARDS

Copper is toxic for various organisms in water. Do not apply directly to water. Do not contaminate water when disposing of equipment washwaters.

TOXICOLOGICAL INFORMATION:

Treat symptomatically.

This product is classified as non-hazardous as the quantity needed to harm a human is too high to be of practical importance. Excessive quantities may cause “metallic fever”, which is an allergic reaction without lasting effect, rather than a true poison. Cuprous oxide is not considered toxic to humans or warm-blooded animals.

DISPOSAL AND DECONTAMINATION:

Canadian manufacturers should dispose of unwanted active ingredients and containers in accordance with municipal or provincial regulations. For additional details and clean up of spills, contact the manufacturer or the provincial regulatory agency.

STORAGE: Keep in original container during storage. Store product in cool, dry, well ventilated place away from seed, feed, fertilizer, or other pesticides. Keep away from the open flame, or other source heat.

NOTICE TO USER: This pest control product is to be used only in accordance with the directions on the label. It is an offence under the Pest Control Products Act to use this product in a way that is inconsistent with the directions on the label. The user assumes the risk to persons or property that arises from any such use of this product.
