NOTICE TO USER:

This pest control product is to be used only in accordance with the directions on the label. It is an offence under the Pest Control Products Act to use this product in a way that is inconsistent with the directions on the label. The user assumes the risk to persons or property that arises from any such use of this product.

FOR INDUSTRIAL USE ONLY: Technical advice regarding specific site problems is available from Veolia Water Technologies & Solutions Canada GP.

PRECAUTIONS:

KEEP OUT OF REACH OF CHILDREN

Corrosive to eyes and skin. Fatal if swallowed. POTENTIAL SKIN SENSITIZER. Do not swallow. Do not inhale dust. Do not get in eyes, on skin or on clothing. Avoid contamination of food. Store away from oxidizing materials, heat and sources of ignition, food and food containers. Avoid contact with metals. Do not contaminate water, food or feed by storage or disposal.

Wear goggles or a face shield, chemical-resistant gloves, long pants, a long sleeved- shirt, shoes and socks during mixing/loading, clean up and repair.

Formaldehyde can be released during use of this product. It is recommended that this product not be used in circumstances that would result in formaldehyde air concentrations in the workplace exceeding the exposure levels established by occupational health and safety authorities in your jurisdiction. If values exceed this level, it is recommended that NIOSH approved respiratory protection be worn.

Users should wash hands before eating, drinking, chewing gum, using tobacco or using the toilet. Users should remove clothing/protective equipment immediately if pesticide comes in contact with skin through soaked clothing or spills. Then wash skin thoroughly and put on clean clothing and required protective equipment prior to resuming your previous work activity. Discard clothing or other absorbent materials that have been drenched or heavily contaminated with this product's concentrate. Do not reuse them.

#### FIRST AID:

If swallowed. Call a poison control centre or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control centre or doctor. Do not give anything by mouth to an unconscious person.

If on skin or clothing. Take off contaminated clothing. Rinse skin immediately with plenty of water for 15–20 minutes. Call a poison control centre or doctor for treatment advice.

If inhaled Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible. Call a poison control centre or doctor for further treatment advice.

If in eyes Hold eye open and rinse slowly and gently with water for 15–20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control centre or doctor for treatment advice.

Take container, label or product name and Pest Control Product Registration Number with you when seeking medical attention.

TOXICOLOGICAL INFORMATION: Treat symptomatically.

ENVIRONMENTAL HAZARDS: This product is toxic to fish and other aquatic organisms. It is not to be used in circumstances that would cause or allow it to enter lakes, streams, ponds, estuaries, oceans or other waters in contravention of federal or provincial regulatory requirements. The requirements of applicable laws should be determined before using the product.

DISPOSAL: For information on disposal of unused, unwanted product, contact the manufacturer or the provincial regulatory agency. Contact the manufacturer and the provincial regulatory agency in case of a spill, and for clean-up of spills.

#### DIRECTIONS FOR USE:

Metalworking fluids: Use 0.6 to 1.2 kg per 10,000 liters of system volume. Cut or open bag to expel product directly into sump at a convenient point. Oilfield Applications: Use 100 ppm active ingredient based on the water content of the system until control is achieved. Maintenance dosage is 10-25 ppm Biomate SAN9362. Gas Wells: Introduce through wellhead valving system, so product drops down tubing. Oil Gas Wells: Introduce through wellhead valving system, so product drops down tubing. Oil Wells: Drop down tubing when sucker rods are pulled. Storage tanks: Drop through their hatch. Cooling towers: Pre-clean heavily fouled systems. Shock dosages of 100 ppm Biomate SAN9362 based on the water content of the system may be used until control is achieved. Maintenance dosages of 15-50 ppm Biomate SAN9362 are sufficient to maintain control. Cut or open the bag to expel the product directly into the sump of the system at a convenient point. Avoid all skin contact, wear protective gloves. Each stick contains 100 grams of active ingredient.
