BACBUSTER GRANULAR BIOCIDES

A GRANULAR BIOCIDES FOR MICROBIOLOGICAL CONTROL OF
BACTERIA, SLIME, FUNGI AND ALGAE

COMMERCIAL - INDUSTRIAL

ACTIVE INGREDIENT: 2 - BROMO - 2 - NITROPROPANE - 1,3 - DIOL 99.7%

REGISTRATION NO : 23278 PEST CONTROL PRODUCTS ACT

DANGER

POISON CORROSIVE

POTENTIAL SKIN SENSITIZER, CORROSIVE TO EYE AND SKIN

READ THE LABEL BEFORE USE

**NOTICE TO USER: This pest control product is to be used only in accordance with the directions on this label.
It is an offence under the *Pest Control Products Act* to use this product in a way that is inconsistent with the directions
on the label.**

PRECAUTIONS:

KEEP OUT OF REACH OF CHILDREN.

Corrosive to eyes and skin. Fatal if swallowed. **POTENTIAL SKIN SENSITIZER.** Do not ingest. Do not inhale the dust. **DO NOT** get in eyes, on skin or clothes. Avoid contamination of food.

Wear goggles or a face shield, chemical-resistant gloves, long pants, a long sleeved-shirt, shoes and socks during mixing/loading, clean up and repair.

Formaldehyde can be released during use of this product. It is recommended that this product not be used in circumstances that would result in formaldehyde air concentrations in the workplace exceeding the exposure levels established by occupational health and safety authorities in your jurisdiction. If values exceed this level, it is recommended that NIOSH approved respiratory protection be worn.

Users should wash hands before eating, drinking, chewing gum, using tobacco or using the toilet. Users should remove clothing/protective equipment immediately if pesticide comes in contact with skin through soaked clothing or spills. Then wash skin thoroughly and put on clean clothing and required protective equipment prior to resuming your previous work activity.

Discard clothing or other absorbent materials that have been drenched or heavily contaminated with this product's concentrate. Do not reuse them.

Store away from:

- a) Oxidizing materials
- b) Heat and sources of ignition
- c) Food and food containers

Avoid contact with metals.

FIRST AID:

In case of contact with eyes, Hold eye open and rise slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.

In case of contact with skin or clothes, Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.

If inhaled, Move the person to fresh air. If person is not breathing call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible. Call a poison control centre or doctor for further treatment advice. Move the person to fresh air.

If swallowed, Call a poison control centre or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control centre or doctor. Do not give anything by mouth to an unconscious person.

Take container, label or product name and Pest Control Registration Number with you when seeking medical attention.

ENVIRONMENTAL PRECAUTIONS:

This product is toxic to fish and other aquatic organisms. It is not to be used in circumstances that would cause or allow it to enter lakes, streams, ponds, estuaries, oceans or other waters contravention of federal or provincial regulatory requirements. The requirements of applicable laws should be determined before using the product.

TOXICOLOGICAL INFORMATION:

This product is corrosive to eyes and skin. It may produce a sensitization response to some people and an allergic reaction may appear. Treat symptomatically.

DISPOSAL:

1. Triple rinse or pressure rinse the empty container thoroughly and add the rinsings to the treatment site.
2. Follow the provincial instructions for any additional cleaning of the container prior to its disposal.
3. Make the empty container unsuitable for further use.
4. Dispose of the container in accordance with the provincial regulations.
5. For more information concerning the disposal of unused, unwanted product, contact the Manufacturer or the provincial regulatory agency. Contact the manufacturer or the provincial regulatory agency in case of a spill.

DIRECTIONS FOR USE:

BACBUSTER is a broad-spectrum microbial agent for controlling micro organisms such as bacteria, slime, fungi and algae. The dosage will depend on the type of system, extent of contamination and the degree of control desired.

NOT INTENDED FOR USE IN POTABLE WATER TREATMENT SYSTEMS.

Paper Mills:

Use 30 –50 g active ingredient per metric tonne of dry paper produced at least once per day.

BASBUSTER may be used as a slimicide to the process system (white water) at a maximum level of 100 g per tonne of dry weight fibre, to produce paper or paperboard that may come in contact with foods.

Heat Exchangers, Cooling Towers, Condensers, Air Washers, Pasteurizer (Pasteurizing Tunnel), Cooling Water System, and Food Processing Plants:

Avoid contamination of food in application of this product. Pre-clean heavily fouled systems e.g with chlorine. Shock dosages of 100 ppm active ingredient based on the water content of the system. It may be used until control is achieved. Maintenance dosage 15-50 ppm active ingredient.

Oilfields Applications :

Use 100 ppm active ingredient based on the water content of the system until control is achieved. Maintenance dosage 10-25 ppm active ingredient.

Metal Working Fluids :

Use 0.5- 1.0 kg active ingredient per 10,000 litres of system volume.

IN ALL CASES, AVOID SKIN CONTACT, WEAR CHEMICAL RESISTANT GLOVES
