Not recommended for garden use.

DISPOSAL: Dispose of used or unused product with household garbage.

PRECAUTIONS: Pregnant or nursing women and people with a suppressed immune system should note that a parasite found in cat feces can cause toxoplasmosis. They should exercise caution and consult a physician before handling a litter box. Always wash hands thoroughly after preparing or cleaning the litter box. For further information, consult your local public health office.

WARNING: Do not flush waste down the toilet or any other water waste system. Do not use this product as a traction aid. It becomes slippery when wet. Keep the litter away from food preparation.
