DIRECTIONS FOR USE: When used as directed, VÉTO MIST FLY KILLER INSECTICIDE controls house flies, mosquitoes, wasps, silverfish, cockroaches, fleas, spiders, crickets, bed bugs, biting midges, flying moths, and accessible stages of stored product insects.

HOUSE FLIES, MOSQUITOES, WASPS, AND BITING MIDGES: Close doors and windows. Direct mist upwards to all parts of the room, especially windows and other light sources. Commence application with 3 to 5 bursts (3 to 5 seconds) for every 30 cubic meters of space, keeping doors and windows closed for 15 minutes after the treatment. Also direct mist into areas where insects are found.

TO CONTROL FLYING MOTHS: Treat all enclosures arranging clothing and other articles so that the mist can circulate freely. Apply for 3 seconds per 30 cubic meters of space. Close treated areas for at least 45 minutes.

TO CONTROL BED BUGS: Spray mattress lightly, particularly around seams and tufts. Take beds apart and spray the frames, springs and all joints. Also spray cracks, crevices, baseboards, and other possible hiding places around the room. Repeat as required.

TO CONTROL AMERICAN DOG & CAT FLEAS AND AMERICAN & BROWN DOG TICKS: Spray infested areas such as pet's bed and resting quarters, nearby cracks and crevices, along and behind baseboards, window and door frames and localized areas of floor and floor covering where these pests may be present. Remove old bedding and replace with fresh clean bedding after treatment. Insects must be contacted to be killed. Do not treat animals with this product.

PRECAUTIONS: KEEP OUT OF REACH OF CHILDREN. Avoid contact with skin, eyes, and clothing. Avoid inhalation of spray. Wash after use. Cover fish bowls and remove pets for one hour when spraying rooms. Remove or cover all exposed foods and cooking utensils before spraying. This dispenser contains a liquid under pressure. Do not puncture or incinerate, or expose the container to temperatures higher than 50 degrees Celsius. Do not spray near open flame or spark, or while smoking. Do not spray closer than 1 metre to fabric, furniture, or interior walls to avoid staining. Exceeding dosage rates and bi-weekly applications may cause stains on fabrics, furs and other materials. Do not contaminate any body of water. Do not place in hot water or near radiators, stoves or other sources of heat. Ventilate treated areas for 30 minutes before reentry.

FIRST AID: If in eyes: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control centre or doctor for treatment advice. **If on skin or clothing:** Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control centre or doctor for treatment advice. **If swallowed:** Call a poison control centre or doctor immediately for treatment advice. Do not induce vomiting unless told to do so by a poison control centre or doctor. Do not give any liquid to the person. Do not give anything by mouth to an unconscious person. Take container, label or product name and Pest Control Product Registration Number with you when seeking medical attention.

TOXICOLOGICAL INFORMATION: Treat symptomatically. This product contains petroleum distillate.

DISPOSAL: When container is empty, press valve to release all remaining pressure. Dispose of empty container in household garbage.
