EPA Est. No. 1021-MN-2

Valent Canada Inc., 201-230 Hanlon Creek Blvd., Guelph, Ontario N1C 0A1, (519) 767-9262

DIRECTIONS FOR USE: Shake well before using - Hold can upright while spraying.
Do not use tetramethrin in food handling, storage or preparation areas while food is present.
Not for use in greenhouses, vegetable gardens or on food-bearing plants.

FOR INDOOR USE:

FLYING INSECTS: Flies, gnats, mosquitoes, hornets, wasps, whiteflies (indoor plants only), and small flying moths. Use only for spot and crack and crevice applications. Spray around light fixtures. Remove animals for a minimum of 1 hour when spraying room. Following treatment, ventilate all rooms, do not access for a minimum of 15 minutes and do not re-enter before ventilation is complete. Avoid contact with treated surfaces until dry.

CRAWLING INSECTS: Ants, Carpet Beetles, Centipedes, Caterpillars, Cockroaches, Crickets, Fleas, Silverfish, Earwigs, Mealybugs, and Spiders. Use only for spot and crack and crevice applications. . A crack and crevice application is made into narrow openings on the surfaces of the structure. Such openings commonly occur at expansion joints, utility entry points and between different elements of construction (for example, baseboards, moulding). Special attention should be paid to cracks, hidden surfaces under sinks, behind stoves and refrigerators, storage areas and wherever these pests are suspected of hiding. To kill ants, treat doors, around window frames, ant trails and other areas of entry.

FLEAS: Spray animal sleeping quarters and floors around area, but not furniture or carpets that people regularly contact. Remove old bedding and replace with clean bedding after treatment. DO NOT SPRAY PETS.

For other insects listed above spray around doorframes and window frames indoors.

HOUSEPLANT PESTS: Kills Ants, Aphids, Caterpillars, Leafhoppers, Spiders, Whiteflies, Mealybugs, and Spider Mites on houseplants such as Ivy, African violets, Impatiens, Geraniums and Begonias. Hold container 45 to 60 cm from plants being sprayed. Cover upper and lower surfaces of leaves. Avoid wetting foliage with spray. Use short bursts of 1 second for spot application on new growth. A spot treatment is made to a localized surface area not greater than 0.2 m². Spots are not to be adjoining and the total area of spots is not to exceed 10% of the surface area being treated (for example, floors, walls, ceilings). Use caution on young plants and new growth.

PRECAUTIONS: KEEP OUT OF REACH OF CHILDREN AND PETS. Harmful if swallowed or absorbed through skin. Contains petroleum distillate. Do not breathe vapors or spray mist. Avoid contact with skin or eyes. Wash hands with soap and warm water after use. DO NOT SPRAY PETS OR OTHER ANIMALS WITH THIS PRODUCT. Avoid contamination of foodstuffs. Do not use in commercial food processing or preparation areas. In the home, all processing surfaces and utensils should be covered during treatment, or thoroughly washed and rinsed before use. Remove or cover exposed food. Remove all pets and birds and cover fish aquariums before spraying. Remove animals for a minimum of 1 hour when spraying room. Following treatment, ventilate all rooms, do not access for a minimum of 15 minutes and do not re-enter before ventilation is complete. Avoid contact with treated surfaces until dry. Contents under pressure. Keep away from heat, sparks and open flame. Do not puncture or incinerate container. Exposure to temperatures above 50°C may cause bursting. Do not use this product in or on electrical equipment due to possibility of shock hazard. Do not use on Maidenhair Ferns.

FIRST AID: If on skin or clothing, take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control centre or doctor for treatment advice. If in eyes, hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control centre or doctor for treatment advice. If swallowed, call a poison control centre or doctor immediately for treatment advice. Do not induce vomiting unless told to do so by a poison control centre or doctor. Do not give any liquid to the person. Do not give anything by mouth to an unconscious person. Take container, label or product name and Pest Control Product Registration Number with you when seeking medical attention.

TOXICOLOGICAL INFORMATION: This product contains petroleum distillates. Vomiting may cause aspiration pneumonia. Treat symptomatically.

ENVIRONMENTAL HAZARDS: Toxic to aquatic organisms.

STORAGE: Store in a cool dry area away from heat or open flame.

DISPOSAL: Do not use empty container. When container is empty, press valve to release all remaining pressure. Wrap container in several layers of newspaper and discard in household garbage. Do not puncture or incinerate.

NOTICE TO USER: This pest control product is to be used only in accordance with the directions on the label. It is an offence under the Pest Control Products Act to use this product in a way that is inconsistent with the directions on the label.
