DIRECTIONS FOR USE:

PAPER MILLS

Nalcon 7639CAN Biocide should be used at 0.6 – 1.0 kg per tonne of dry paper produced at least once per day.

Nalcon 7639CAN Biocide can be used as an antimicrobial/preservative in filler, pigment slurries, starch sizing solutions and latex coatings for use in paper and paperboard that may contact foodstuff (aqueous, fatty and dry foods) at levels not to exceed 0.01% weight of these aforementioned components.

WATER SYSTEMS TREATMENT

For Food Plant and Other Industrial Uses.

Not for use in potable water systems.

Do not apply by open pouring of the liquid to cooling water systems; a metering pump is required for this use.

In industrial recirculating cooling water and process water applications, use at 100 ppm active ingredient based on water content of system until control is achieved.

Maintenance dosage is 10 -25 ppm.

For Pasteurizer cooling water systems avoid contamination of food in application of the product. Shock dosages of 100 ppm active ingredient should be added to the closed recirculating system at a convenient point of uniform mixing such as a basin pump area or other reservoir from which the treated water will be circulated uniformly throughout the pasteurizer cooling systems. Maintenance dosage is 10 – 25 ppm.

PRECAUTIONS: Danger. KEEP OUT OF REACH OF CHILDREN. Corrosive to eyes and skin. POTENTIAL SKIN SENSITIZER. Avoid ingestion, inhalation and contact with skin, eyes and clothing. Wear goggles and face shield, chemical-resistant gloves, long pants, a long sleeved-shirt, shoes and socks during mixing/loading, clean up, and repair. Formaldehyde can be released during use of this product. It is recommended that this product not be used in circumstances that would result in formaldehyde air concentrations in the workplace exceeding the exposure levels established by occupational health and safety authorities in your jurisdiction. If values exceed this level, it is recommended that NIOSH approved respiratory protection be worn. Users should wash hands before eating, drinking, chewing gum, using tobacco, or using the toilet. Users should remove clothing/protective equipment immediately if pesticide comes in contact with skin through soaked clothing or spills. Then wash skin thoroughly and put on clean clothing and required protective equipment prior to resuming your previous work activity. Discard clothing or other absorbent materials that have been drenched or heavily contaminated with this product's concentrate. Do not reuse them.

FIRST AID:

IF IN EYES: hold eye open and rinse slowly and gently with water for 15–20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control centre or doctor for treatment advice.

IF SWALLOWED: Call a poison control centre or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control centre or doctor. Do not give anything by mouth to an unconscious person.

IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15–20 minutes. Call a poison control centre or doctor for treatment advice.

IF INHALED: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible. Call a poison control centre or doctor for further treatment advice.

Take container, label or product name and Pest Control Product Registration Number with you when seeking medical attention.

TOXICOLOGICAL INFORMATION: This product may produce a sensitization response or allergic reaction in some individuals. Treat symptomatically.

HANDLING AND STORAGE: Store away from:

- a) oxidizing materials,
- b) heat and sources of ignition,
- c) food and food containers.

Avoid contact with metals.

ENVIRONMENTAL HAZARDS:

This product is toxic to fish and other aquatic organisms. It is not to be used in circumstances that would cause or allow it to enter lakes, streams, ponds, estuaries, oceans, or other waters in contravention of federal or provincial regulatory requirements. The requirements of applicable laws should be determined before using the product.

DISPOSAL:

For Porta-Feed System: 1. Close valve. 2. Arrange for return of Porta-Feed.

For Other Containers: 1. Triple – or pressure – rinse the emptied container. Add the rinsings to the treatment site. 2. Follow provincial instructions for any required additional cleaning of the container prior to its disposal. 3. Make the empty container unsuitable for further use. 4. Dispose of the container in accordance with provincial requirements. 5. For information on the disposal of unused, unwanted product, contact the Provincial Regulatory Agency or the manufacturer. Contact the Manufacturer and the Provincial Regulatory Agency in case of spill and for cleanup of spills.

NOTICE TO USER: This pest control product is to be used only in accordance with the directions on the label. It is an offence under the Pest Control Products Act to use this product in a way that is inconsistent with the directions on the label. The user assumes the risk to persons or property that arises from any such use of this product.

TDG Shipping Name: CORROSIVE LIQUID, ACIDIC, ORGANIC, N.O.S. (2-BROMO-2-NITROPROPANE-1,3-DIOL), Class 8, UN3265, PGIII
