DIRECTIONS:

SHAKE WELL BEFORE USING. Point spray nozzle away from face and press button, holding container as upright as possible. Apply in short bursts. For use in and around the home. If reinfestation occurs, repeat application.

FOR INDOOR USE:

For fast knockdown of flying insects, spray directly at insects, keeping about 1 metre from interior walls, fabrics, and furniture. DO NOT USE AS A SPACE SPRAY.

For residual control of flies around screens and doors, spray from a distance of 40 – 50 cm covering 1 square metre of surface area in 4 – 6 seconds. It is recommended to check for potential staining and damage in an inconspicuous place before complete treatment.

For FLEAS: Thoroughly apply as a spot treatment to infested areas such as pet beds and resting quarters and localized areas of floors and floor coverings where pests may be present. DO NOT SPRAY PETS WITH THIS PRODUCT. Repeat spraying as necessary.

For ROACHES, SILVERFISH, FIREBRATS, CRICKETS, EARWIGS: Spray hiding places such as baseboards, moist places, storage cabinets, behind bookcases, and openings around sinks, drains and pipes, hitting as many insects as possible. For ANTS, spray trails, hills, around doors, openings around pipes, window frames, and baseboards where ants crawl, hitting as many as possible. In kitchens, also spray around refrigerators, stoves and storage areas. When spraying by stoves, make sure pilot light is first turned off. Repeat as necessary.

For SPIDERS, CENTIPEDES, SOW BUGS, PILLBUGS: Spray webs and places where these pests crawl. These insects tend to hide in dark moist areas. Hit as many as possible. Repeat as necessary.

For CARPET BEETLES: Hit these bugs directly with spray on localized sections of floor, baseboards, shelves and underside of carpets. Repeat at frequent intervals.

For WASPS, HORNETS, and YELLOW JACKETS: Spray directly at stray wasps that enter building, keeping about 1 metre from interior walls, fabrics, and furniture.

FOR OUTDOOR USE:

Give special attention to breeding areas, such as around garbage cans. For control of fly eggs, spray around garbage cans from a distance of 40 to 50 cm covering 1 square metre of surface area in 4 to 6 seconds. When spraying be careful that spray does not contact painted surfaces of vehicles. Repeat as necessary.

For CRICKETS, EARWIGS, CENTIPEDES, SOWBUGS, PILLBUGS: Spray around doors, foundations and damp moist places where these insects hide, hitting as many as possible. Repeat spraying as often as necessary.

For ANTS: Spray trails, hills, around doors, openings around pipes, and window frames where ants enter and crawl, hitting as many as possible. Repeat as necessary.

For SPIDERS: Spray webs and places where these pests crawl. Hit as many as possible. Repeat as necessary

PRECAUTIONS: KEEP OUT OF REACH OF CHILDREN. POTENTIAL SKIN SENSITIZER. Avoid contact with skin, eyes and clothing. Wash hands thoroughly with soap and water after handling. Do not apply

directly to humans, pets, plants, or contaminate feed, foodstuffs, dishes or utensils. This product contains a petroleum distillate which is moderately to highly toxic to aquatic organisms. Avoid contamination of aquatic systems during application. Do not contaminate these systems through direct application, disposal of waste or cleaning equipment. Cover and avoid spraying fish aquariums. **KEEP FROM FREEZING. CONTENTS UNDER PRESSURE.** Do not place in hot water or near radiators, stoves or other sources of heat. Do not puncture or incinerate container or store at temperatures over 50°C.

FIRST AID:

If on skin or clothing, take off contaminated clothing. Rinse skin immediately with plenty of water for 15–20 minutes. Call a poison control centre or doctor for treatment advice. **If inhaled**, move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible. Call a poison control centre or doctor for further treatment advice. **If in eyes**, hold eye open and rinse slowly and gently with water for 15–20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control centre or doctor for treatment advice. **If swallowed**, call a poison control centre or doctor immediately for treatment advice. Do not induce vomiting unless told to do so by a poison control centre or doctor. Do not give any liquid to the person. Do not give anything by mouth to an unconscious person. Take container, label and Pest Control Product Registration Number with you when seeking medical attention.

TOXICOLOGICAL INFORMATION: Contains petroleum distillates.

DISPOSAL: When empty, press button to release pressure, discard in household garbage.
