Secondary Panel

DIRECTIONS

- Store in a dry place.
- Use in confined area such as patios, decks, backyards, and other outdoor areas where there is little or no breeze.
- Remove a Stick from the box and ignite the tip until it flames. Invert the Stick to insure the entire end is well started. When this occurs, blow out the flame. It will continue to burn without a flame but will create smoke which will repel mosquitos.
- Insert the bottom end of the Stick into the ground so that the Stick stands upright.
- Use one stick per 28 cubic meters of confined space.
- To extinguish, gently knock off glowing end and put the tip out by inserting in dirt or sand.

PRECAUTIONS

- **KEEP OUT OF REACH OF CHILDREN AND PETS.**
- Do not place in direct contact with flammable surface.
- Avoid prolonged inhalation.
- Cover exposed food to avoid contamination.
- Do not touch lit end.

FIRST AID

If irritation or other adverse skin effects develop, wash affected area with soap and water immediately. Seek medical attention if symptoms persist. **If in eyes:** remove contact lenses, and flush eyes with water for 15 minutes. **If inhaled:** if person is not breathing, give artificial respiration. **If swallowed:** DO NOT induce vomiting. Have person sip a glass of water if able to swallow. Call a poison control centre or doctor for further treatment advice.

• Take container, label or product name and PCP Registration Number with you when seeking medical attention.

TOXICOLOGICAL INFORMATION

- Treat symptomatically.

DISPOSAL

- Dispose of empty container and sticks with household garbage.
